REPORT OF WELLS FIRE DEPARTMENT

To the Citizens of Wells:

I hereby submit with pleasure, that you may know what this Department has done the year just passed,—my first annual report of the Wells Fire Department.

This Department was incorporated May 10th, 1922 as a Charitable Benevolent Corporation under the name of Wells Fire Department and has a membership of twenty-four men ready for service in case of fire.

Our equipment consists of one Combination Chemical and Hose Truck mounted on a one-ton Ford Chassis, carrying two 4-gallon chemical tanks with 200 feet of chemical hose, one 30-foot extension ladder and one 12 foot roof ladder, one open nozzle, one shut-off nozzle, one gate valve, axes, lanterns, rope and 450 feet of fire hose and on top of this weight we carry seven men to man the equipment immediately upon reaching the fire. This equipment which is necessary is overloading our truck, but cannot be helped under the present situation. Since our Incorporation we have purchased the Hose House, so-called, and will move it on the lot purchased by the Department opposite the Davis Blacksmith Shop.

Our supplies have been only necessities which had to be had to realize an efficient fire protection. These supplies include gasoline and oil, chemical soda and acid, hydrant wrench and spanners and one shut-off nozzle and one hydrant gate valve.

With this equipment we have not enough fire hose to give you the protection you should have. With only 450 feet of hose it is not sufficient for the conditions which surround us.

We had an opportunity to see what 450 feet of hose would do at the Libby Farm fire. We have conditions which call for as much hose as the Libby fire did and we cannot tell when we shall need it but we shall need it and we should be prepared.

We have about 600 feet of canvas hose that is not any

good except for the couplings. These couplings can be used on new hose and are good for an allowance of .05 per foot on the purchase of new hose. I would suggest that if new hose is bought that liner hose be had instead of rubber-lined for the fact that our experience with rubber-lined hose we have not pressure enough to require such heavy hose and secondly, it is a good deal heavier and more bulky than linen hose and thereby causes overweight and slower handling in use on the truck body. We should have at least 500 feet more hose this year which would make only 950 feet altogether for the Wells Fire Department. Only 450 feet was bought this year as we did not want to overdraw our appropriation of $300.

We have on hand 200 pounds of soda and six gallons of acid.

A report of fires to which this Department has been called follows:

May 27, 1922; location, Post Road; description, dwelling; owner, H. A. Seavey; cause, sparks from chimney; loss, $100.

May 29, 1922; location, Branch Brook; description, woods; owner, W. Phillips; cause, bon fire; loss, $1,500.

May 30, 1922; location, Branch Brook; description, woods.

May 31, 1922; location, Branch Brook; description, woods; owner, Mrs. Charles Swasey; loss, $200.

June 1, 1922; location, Branch Brook; description, woods.

June 1, 1922; location, Sanford Road; description, barn; owner, George Tilton; cause, lightning.

August 1, 1922; location, Post Road; description, Chip Factory; owner, E. Couturi; cause, over-heated fat; loss, $50.

August 1, 1922; location, Post Road; description, rubbish; owner, F. W. Bayley; loss, none.

August 13, 1922; location, Maryland Ridge; description, West Hall; owner, Methodist Society; cause, unknown; loss, $1500.

September 9, 1922; location, Post Road; description, barn; owner, C. C. M. Littlefield; cause, lightning; loss, $2800.

October 5, 1922; location, Post Road; description, house and barn; owner, A. Libby; cause, lightning.

October 20, 1922; location, Post Road; description, chimney; owner, R. Morrill; cause, defective chimney; loss, none.

November 25, 1922; location, Post Road; description, grass; owner, F. McCaulder; cause, sparks from locomotive; loss, none.

December 6, 1922; location, Bald Hill; description, schoolhouse; owner, town of Wells; cause, defective chimney; loss, none.

Respectfully submitted,
CASPER O. HUBBARD, Chief.

REPORT OF THE CHIEF ENGINEER OF THE WELLS BEACH HOSE COMPANY

To the Honorable Citizens of the Town of Wells:

In rendering my report of the Wells Beach Hose Company ending February 28th, 1923, I will state that we have been very fortunate this year in not having many serious fires. But we may not always be as fortunate, therefore it stands us in hand to be prepared for whatever emergency may arise by having up-to-date equipment.

We recommend that the town install seven more hydrants at Wells Beach, also that we need more hose, as what we have has been in use for twelve years and some of it is in very bad condition.

In behalf of the Engineer I will take this opportunity to extend our sincere thanks to all officers and members of the Fire Department for the promptness in which they have discharged their duties during the past year. Now we have answered three general alarms, five brush fires and three still alarms.

Respectfully submitted,
E. B. STUDLEY,
Engineer.

It will be seen that there was an overdraft of $3,445.18 on breaking down snow with insufficient appropriation and also an overdraft of $1,373.98 on Hydrant Rental paid the York County Water Company in final settlement according to the vote of the town. It will also be noted that there is an overdraft of $5,675.00 on highways, roads and bridges. This overdraft was caused largely on account of the great quantity of rain we had in the Spring which made the country roads almost impassable necessitating a great deal more money spent on them than usual. The highways at Wells Beach were greatly damaged by heavy trucks and heavy traffic in general at the same time and they had to be repaired. With the high cost of gravel and lumber the repairs amounted to quite a sum and the replacing of one of the abutments and planking of the Drake's Island Road bridge had to be taken care of. A number of our bridges had to be replanked with 4-inch plank instead of 3-inch as heretofore because of the ever increasing truck travel. There are more and more cars and trucks on our roads every year and consequently it is going to cost more to maintain them especially if we have a great deal of rain as we did last Spring.

Respectfully submitted,

HIGH SCHOOL

Principal, Paul H. McIntire
Assistant, Ethel Weymouth
Assistant, Annie Waldron
Commercial. Myra Jordan

CHANGES IN TEACHING FORCE SINCE SEPT. 1922

Mrs. Edna Shorey has been absent from her position in the Ogunquit Primary School since the opening of the winter term. This position has been filled by substitutes.

Miss Bernice Keniston resigned her position in Division 14 and Mrs. Mabel Hatch has had charge of that school since the opening of the winter term.

Miss Florence Walker was unable to continue her work

in Division No. 16 after the fall term. Mrs. Vernie Neily was employed for that position.

HIGH SCHOOL

The work of our High School has been interrupted considerably as a result of the loss of the old school building and again because of severe storms which have tied up the car service making it impracticable to keep the school in session. Much credit is due the teachers and pupils in this school for making the best of conditions as they have existed and for the effort they are putting forth to hold the work up to the usual standard. The new high school building greatly facilitates the work of this school. This building is thoroughly modern in lighting, heating and ventilation and the arrangement of the rooms is very convenient. For a detailed account of the work of the high school for the past year I call your attention to the report of Principal Paul H. McIntire.

REPAIRS MADE DURING PAST YEAR

In Division No. 1 a new door was provided for the front entry. The outside steps and platforms in Division 2 were in such condition that it was necessary to tear them away and build new.

In Division 5 the cesspool has been cleaned and repaired and quite extensive repairs have been made on the inside of the building. Some repairs were made at Division 10. The building in Division 12 was in very poor condition. During the past year we have made extensive repairs on the walls and doors in this building. We have also provided this school with better seats and desks. In Division 14 the building has been shingled and some repairs have been made on the inside. In Division No. 16 new outside steps and platform have been provided. In addition to the items already mentioned many small repairs have been made upon the various school buildings throughout the town.

REPAIRS FOR THE COMING YEAR

In addition to the unforeseen repairs which must be made each year, the following are evident now:

Many of the buildings, especially the outbuildings should be painted without delay. Unless this matter is attended to this year these buildings will deteriorate rapidly. The outbuildings in Divisions 12 and 14 are in poor condition. These buildings are connected with the main school building but

they are not properly constructed to meet the requirements of the present laws relating to such buildings.

Extensive changes in these buildings during the coming year will be necessary. The building in Division 14 can be repaired and changed so that it will serve for some time; but in Division 12 it seems unwise to attempt to use the old outbuilding; hence the School Committee is recommending a special appropriation to be used in providing a suitable outbuilding in Division 12. Quite extensive repairs have been made recently on the furnace in Division 2. The fence around the Ogunquit School lot is in very poor condition and must be repaired early in the spring. In Division 3, a new fence is needed. Several school buildings have no closets or book cases in which to store surplus books and supplies. We desire to provide the closets as soon as possible so that books and supplies may be properly cared for.

In addition to the items just mentioned many repairs of a minor nature will be necessary during the ensuing year.

RECOMMENDATIONS OF SUPERINTENDING SCHOOL COMMITTEE FOR THE ENSUING YEAR

Common Schools	$9,000 00
High School	5,850 00
Superintendence	700 00
Repairs	800 00
Books	800 00
Supplies, etc.	600 00
Water Rent	200 00
High School Graduation	100 00
Outbuilding for Division 12	300 00

We wish to call attention to the terms of the present State School Law which combines the State Funds for Common and High Schools. At present there is no Common School Fund and no High School Fund but a General State School Fund that may be used to support both the Common and High Schools. It seems wise, therefore, for the town to combine its appropriations for Common and High Schools and make one General School appropriation that will cover both these items.

HEALTH WORK AMONG SCHOOL CHILDREN

The appropriation of $300.00 made at the annual town meeting of last year for the purpose of providing School Physicians has enabled us to provide quite extensive medical inspection in the schools. Dr. Gordon has had charge of this

work in Divisions 1, 2, 3, 4, and 5. Dr. Smith has attended to this work in Divisions 6, 7, 8, 9, 10, 12, 14, and 16. The children have been carefully examined and records made of their physical condition and development.

Whenever the examinations have revealed physical defects or disease, parents of children so affected have been notified. I am confident that this work is very profitable. Many children are greatly handicapped in their work because of physical defects and disease of which their parents are not aware and which can be easily corrected by proper treatment. We hope that this work may be continued and extended.

GENERAL STATEMENT

Educational conditions throughout our state and in the country as a whole have not changed much during the past year. The general trend of teachers' salaries seems to have been slightly upwards.

The Public School is recognized generally as a leading factor in determining the character of our civilization.

The Public School needs and demands men and women of first class ability and correct ideals.

Men and women of this type cannot be secured unless the salaries paid are reasonably high.

It is encouraging to note that this fact is so generally recognized that teachers' salaries are being maintained and in many instances raised above the standards reached during the past few years. In the schools of our town we have strong, efficient teachers working faithfully to help the boys and girls in their charge. We hope to be able to retain the services of competent teachers during the coming year and we depend upon the loyalty and support of the citizens of this town to enable us to do so.

In conclusion I wish to express my hearty appreciation of the support that I have received from the Superintending School Committee, the loyalty and faithful service of teachers and the general cooperation of citizens of the town.

Respectfully submitted,

CHARLES A. RUSH,

Supt. of Schools.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

Mr. Charles A. Rush, Superintendent of Schools:

I respectfully submit to you the following report of the work of the High School for the past year.

At the close of the last school year we graduated nineteen students, five boys and fourteen girls. One of these graduates is attending Wheaton College, one is in the Maine School of Commerce, and three are attending the Chandler School in Boston. All of them are doing very fine work.

The present school year opened on September 18th, two weeks later than usual, in the Town Hall. The same corps of teachers was retained throughout. In November, just before Thanksgiving we moved into the new building. The long period during which we were obliged to hold our sessions in the Town Hall had a more or less demoralizing effect upon the enthusiasm and work of the student body, and at the present time we are just beginning to really recover from it. The new building, while it is far from what the teaching force and the students hoped it would be, is proving very satisfactory on the whole, now that the severe weather is past.

The total enrollment thus far is as follows:

	Boys	Girls
Seniors (1923)	5	7
Juniors (1924)	8	8
Sophomores (1925)	9	7
Freshmen (1926)	18	16
	40	38

Total Enrollment, 78.

The attendance for the fall term was excellent. We maintained an average of 69. During this (the winter) term we were obliged to close for nine days at one time and for four at another on account of storms. Following this, came the grippe epidemic. So our average for the present term will not be exceptionally good.

The social life of the school has been carried on according to the same general plan as in previous years.

Two new activities have been started this year. Several of the girls have organized a Camp Fire group, and are entering into the work with much ardor. Several of the boys, under my direction, have organized a Radio Club, and are studying the mysteries of this new development with much interest.

Physical exercises are held regularly for the girls, while the boys are being drilled in military tactics. The latter was introduced at the request of the boys themselves.

We are doing everything in our power to put the school into even better condition than it was when the old building burned. The difficulties have been great, but we feel we are making good progress. If we have seemed to make mistakes, we ask that, under the conditions, they be overlooked.

In conclusion, I wish to thank all for the cooperation and support that has been given my assistants and me during the past year.

Respectfully submitted,

PAUL H. McINTIRE,

Principal.

Wells, Maine, February 28, 1923.

The foregoing report is respectfully submitted and I take this opportunity, after nine consecutive years as Treasurer of this Corporation, with full appreciation of the honor and confidence enjoyed by me and thanking you for the same, I feel it my duty to inform the voters of this Corporation that I cannot accept a nomination to this Office for the ensuing year. I make this statement that my many friends may govern themselves accordingly.

Respectfully submitted,

WILBUR F. COUSENS,

Treasurer.

Wells, Ogunquit, Maine, February 28th, 1923.

Corporation Overseers,

HENRY L. MAXWELL,

WALTER M. PERKINS,

WENDELL G. PHILLIPS.

I have carefully examined the Treasurer's books and the foregoing account and find them correct.

Respectfully submitted,

JOSEPH P. LITTLEFIELD, Auditor.
